CAREER OBJECTIVE

Third-year B.Tech CSE student at RGM CET, JNTU Anantapur (CGPA: **8.88/10.0**) with expertise in ML, full-stack development, and data analytics. Independently built and deployed **3 end-to-end ML-powered web applications** and completed **2 structured industry internships**. Seeking the **Infosys InStep Global Internship** to drive enterprise-scale digital transformation and deliver measurable business value for Infosys clients worldwide.

EDUCATION

B.Tech – CSE (3rd Year) | RGM College of Engineering and Technology, JNTU Anantapur CGPA: 8.88/10.0 | 2023–2027
Intermediate – MPC | SYVCP Govt. Jr. College, AP 946/1000 (94.6%) | 2021–2023
SSC – Class X | Swami Vivekananda Vidyalaya School, AP 600/600 (100%) | 2020–2021

TECHNICAL SKILLS

Languages: Python, Java, C
Frameworks & Libraries: Django, Flask, Scikit-learn, NumPy, Pandas, Bootstrap, React.js
Web & Tools: HTML5, CSS3, JavaScript, REST APIs, SQL, SQLite, Git, GitHub, Jupyter Notebook
AI / ML: Logistic Regression, Random Forest, Supervised Learning, SHAP, LIME, Feature Engineering, Hyperparameter Tuning
Deployment & Core CS: Render, Flask, REST API Design | DSA, OOP, DBMS, Operating Systems

INTERNSHIP EXPERIENCE

AI & Machine Learning Intern – SmartBridge (APSCHE) 2025

Remote | Government of Andhra Pradesh – APSCHE Initiative

- Built and evaluated 3+ supervised classification models using Scikit-learn; executed full ML pipeline across 5 stages (data ingestion, EDA, preprocessing, feature engineering, hyperparameter tuning), improving model F1-score by ~12% over the baseline.
- Processed and analyzed real-world datasets with 1,000+ records; delivered insights aligned with Infosys AI-driven digital transformation and enterprise analytics use cases.

Web Development Intern – Django | APSSDC

Apr – Jun 2025

3-Month Structured Internship | Andhra Pradesh State Skill Development Corporation

- Developed 2 production-grade Django web applications with MVC architecture, ORM-based database models, form validation, and REST APIs; met 100% of sprint milestones across a 12-week Agile delivery cycle.

PROJECTS

Heart Disease Prediction Web App | Live Deployed 2025

Python | Flask | Logistic Regression | SHAP | LIME | Render — heart-disease-project-6xdv.onrender.com

- Trained Logistic Regression on Cleveland Heart Disease Dataset (303 records, 13 features); achieved 85%+ classification accuracy; integrated SHAP & LIME explainability for feature-level transparency; deployed on Render with 100% uptime since launch.

ThriftStore – Full-Stack E-Commerce Platform

2025

Django | SQLite | Bootstrap | REST APIs — github.com/Meghana-5C3/ThriftStore

- Built end-to-end platform managing 100+ product listings across 5+ categories with user authentication, wishlist, order tracking, admin dashboard, and role-based access control for 2 user roles.

Traffic Volume Prediction – ML Web App

2025

Flask | Random Forest | Scikit-learn | Pandas — github.com/Meghana-5C3/TrafficPredictor

- Trained Random Forest regressor on 3 feature groups (weather, time-of-day, holidays) achieving 90%+ prediction accuracy; served real-time forecasts via Flask REST API with sub-second response time.

CERTIFICATIONS

- Quantum Fundamentals – Amaravati Quantum Valley, Qubitech & WISER (2025–26) | 1 Credit
- HTML5 & CSS Fundamentals – W3Cx, edX | Data Analytics & Digital Organisation – USMx, edX

HACKATHONS & ACHIEVEMENTS

- AI Hackathon – India AI Impact Summit 2026: Recognized among top performers out of 500+ participants for real-time AI problem-solving.
- RGM Code Marathon – BYONDCAMPUZ (Jan 2026): 1st Place Winner among 100+ participants; demonstrated strong algorithmic thinking and programming proficiency.
- Unstop Amazon ML Challenge 2025: Competed nationally against top engineering talent across India in machine learning application challenges.
- Secured merit awards in coding, web development, and prompt engineering across 3+ inter-college technical fests; presented research papers and technical posters.
